We have reviewed the accompanying interim condensed consolidated financial information of Ithmaar Bank B.S.C. (c) (the "Bank") and its subsidiaries (the "Group") which comprises the interim condensed consolidated statement of financial position as at 30 June 2019 and the related interim condensed consolidated income statement for the three month and six month periods ended 30 June 2019 and the related interim condensed consolidated statements of changes in owners' equity, cash flows, and changes in restricted investment accounts for the six month period then ended, and a summary of significant accounting policies and other explanatory notes. The directors are responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with the basis of preparation stated in Note 2 to this interim condensed consolidated financial information. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information has not been properly prepared, in all material respects, in accordance with basis of preparation stated in Note 2 of this interim condensed consolidated financial information.

FAS 25 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Group's market assumptions. These two types of inputs have created the following fair value hierarchy:

Level 1 – Quoted prices (unadjusted) in active markets for identical investments.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the investments, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3 – Inputs for the investments that are not based on observable market data (unobservable inputs).

This hierarchy requires the use of observable market data when available. The Group considers relevant and observable market prices in its valuations where possible.
