In the Name of Allah, the Beneficent, the Merciful

Report of the Sharia Supervisory Board on the activities of Ithmaar Bank B.S.C. (c) and subsidiaries for the Financial Year from 1 January 2022 until 31 December 2022, corresponding to the Year from 28 Jumada Al-Ula 1443 H until 7 Jumada Al-Akhirah 1444 H.

Praise be to Allah, the Lord of the worlds, and peace and blessings be upon our Master, Mohammed, the leader of Prophets and Messengers, and upon his scion and companions, and upon those who follow his guidance until the Day of Judgment.

The Sharia Supervisory Board of Ithmaar Bank B.S.C. (c) and subsidiaries (the Bank) performed the following during the financial year ended at 31 December 2022:

- 1. Issued fatwas and Sharia resolutions related to the Bank's products and activities through Sharia Coordination and Implementation Department and followed its execution through Internal Sharia Audit Department while also guiding different departments towards more diligence on Sharia-compliant transactions.
- 2. Studied different mechanisms of financing, investing and different Mudaraba investments and prepare its documents with the concerned departments that develop and present products.
- 3. Examined the books, records and transactions and auditing some of their samples through Internal Sharia Audit Department as per established Sharia Auditing Standards.
- 4. Examined sources of income and expenditures through reviewing the consolidated statement of financial position, consolidated income statement and the Bank's overall banking activities.
- 5. Examined and approved Sharia reports which are published by the Sharia Coordination and Implementation Department, Internal Sharia Audit Department and External Sharia Audit Department.

We have reviewed the principles and contracts relating to transactions and products launched by the Bank during the year ended at 31 December 2022. We have also conducted the required inspection to provide our opinion on whether the Bank had complied with the provisions and principles of Islamic Sharia, as well as fatwas, resolutions and specific guidance that was issued by us, the resolution of the Centralized Sharia Council and the regulations and instructions issued by the Central Bank of Bahrain.

The Bank's management is responsible for ensuring that the Bank operates in accordance with the provisions and principles of Islamic Sharia. Our responsibility is to express an independent legitimate opinion based on our observation of the Bank's operations, and prepare a report.

In view of the above, the Sharia Supervisory Board hereby resolves as follows:

First: With regard to the Bank's business in general:

a. The Bank's overall operations, investment and financing activities and banking services were conducted in full in compliance with the principles and provisions of Islamic Sharia and in accordance with the Sharia Supervisory Board approved standard contracts.

Shi

Report of the Sharia Supervisory Board on the activities of Ithmaar Bank B.S.C. (c) and subsidiaries for the Financial from 1 January 2022 until 31 December 2022, corresponding to the Year from 28 Jumada Al-Ula 1443 H until 7 Jumada Al-Akhirah 1444 H.

- b. Mudaraba profit and loss distribution reserve is in compliance with the principles and provisions of Islamic Sharia
- c. Gains made from sources prohibited by Sharia were identified and transferred to the Charity Fund.
- d. Zakat is calculated in accordance to Sharia Standard on Zakat issued by the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI). Ithmaar Bank's accounts are consolidated under Ithmaar Holding. Thus, Zakat calculation will be included in the consolidated Financial Statements of Ithmaar Holding.
- e. Income and expenses and gains made from sources prohibited by Sharia is disclosed in Ithmaar Holding's financial statements, as the Bank's accounts are consolidated under Ithmaar Holding.

Second: What has been transferred to the Bank after reorganization:

The Sharia Supervisory Board has reviewed the structure of the Bank and its subsidiaries following the establishment of the Holding Company and the setting up of Ithmaar Bank B.S.C. (c) as subsidiary for commercial operations in Bahrain and Pakistan.

Since the bank's accounts are part of the accounts of Ithmaar Holding, the Shariah Supervisory Board directs the shareholders to refer to those accounts.

We pray to Almighty Allah to grant success to Ithmaar and whom are responsible and grant them success for everything He pleases. May peace and blessings be upon our Master, Mohammed, and upon his scion and companions.

This report has been issued on Monday 22 Rajab 1444, 13 February 2023.

Directors' Report for the year ended 31 December 2022

The Directors submit their report dealing with the activities of Ithmaar Bank B.S.C. (C) ("the Bank") for the year ended 31 December 2022, together with the audited consolidated financial statements of the Bank and its subsidiaries (collectively the "Group") for the year ended.

Principal activities

Ithmaar Bank B.S.C. (C) (the "Bank") was incorporated in the Kingdom of Bahrain on 12 May 2016 as a Closed Joint Stock entity and registered with the Ministry of Industry & Commerce under commercial registration number 99336-1 and was licensed as an Islamic retail bank by the Central Bank of Bahrain (the "CBB") on 14 August 2016. As part of reorganization of erstwhile Ithmaar Bank B.S.C (now Ithmaar Holding B.S.C.), the identified assets & liabilities were transferred to the Bank on 2 January 2017. On 7 July 2022, the sale of the consumer banking business of the Bank to Al Salam Bank B.S.C. (ASB) was completed.

The principal activities of the Group are a wide range of financial services, including commercial, investment banking and private banking.

Consolidated financial position and results

The consolidated financial position of the Group as at 31 December 2022, together with the consolidated results for the year ended is set out in the accompanying consolidated financial statements.

The Group has reported a net income of BD3.1 million for the year ended 31 December 2022 attributable to the equity shareholders of the Group, as compared to a net loss of BD0.51 million for 2021. Total assets at 31 December 2022 amounted to BD2,309.6 million (31 December 2021: BD3,327.5 million).

The consolidated Capital adequacy ratio of the Bank as at 31 December 2022 was 13.21% (31 December 2021: 12.90%) as compared to a minimum regulatory requirement of 12.5%. The Group's risk weighted exposures and eligible capital are set out in note 36 of the accompanying consolidated financial statements.

Directors

The following served as Directors of the Bank during the year ended 31 December 2022:

HRH Prince Amr Mohammed Al-Faisal (Chairman) Tunku Yaacob Khyra

Mr. Mohammed A. Rahman Bucheerei

Independent auditor's report to the shareholders of Ithmaar Bank B.S.C. (c)

Report on the audit of the consolidated financial statements

Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Ithmaar Bank B.S.C. (the "Bank") and its subsidiaries (together the "Group") as at 31 December 2022, its consolidated financial performance, consolidated cash flows and consolidated statement of changes in restricted investment accounts, for the year then ended in accordance with the Financial Accounting Standards "(FAS") issued by the Accounting and Auditing Organisation for Islamic Financial Institutions ("AAOIFI").

What we have audited

The Group's consolidated financial statements comprise:

- the consolidated statement of financial position as at 31 December 2022;
- the consolidated income statement for the year then ended;
- the consolidated statement of changes in owners' equity for the year then ended;
- the consolidated statement of cash flows for the year then ended;
- the consolidated statement of changes in restricted investment accounts for the year then ended;
- the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with the Auditing Standards for Islamic Financial Institutions issued by AAOIFI. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with AAOIFI's Code of Ethics for Accountants and Auditors of Islamic Financial Institutions (AAOIFI Code) and the ethical requirements that are relevant to our audit of the consolidated financial statements in the Kingdom of Bahrain. We have fulfilled our other ethical responsibilities in accordance with these requirements and the AAOIFI Code.

Independent auditor's report to the shareholders of Ithmaar Bank B.S.C. (c) (continued)

Report on the audit of the consolidated financial statements (continued) Other information

The Board of Directors is responsible for the other information. The other information comprises the Report of the Sharia Supervisory Board and the Directors' report (but does not include the consolidated financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report and the Annual Report which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of those charged with governance for the consolidated financial statements

These consolidated financial statements and the Group's undertaking to operate in accordance with Islamic Sharia Rules and Principles are the responsibility of the Board of Directors.

The Board of Directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the FAS and the Bahrain Commercial Companies Law number (21) of 2001, as amended (the "Commercial Companies Law"), the Central Bank of Bahrain ("CBB") Rulebook (Volume 2) and for such internal control as the Board of Directors determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, i.e. the Board of Directors, are responsible for overseeing the Group's financial reporting process.

Independent auditor's report to the shareholders of Ithmaar Bank B.S.C. (c) (continued)

Report on the audit of the consolidated financial statements (continued)

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Auditing Standards for Islamic Financial Institutions issued by AAOIFI will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Auditing Standards for Islamic Financial Institutions issued by AAOIFI, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

Independent auditor's report to the shareholders of Ithmaar Bank B.S.C. (c) (continued)

Report on the audit of the consolidated financial statements (continued)

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory and Sharia requirements

As required by the Commercial Companies Law and the CBB Rulebook (Volume 2), we report the following:

- i. The Bank has maintained proper accounting records and the consolidated financial statements are in agreement therewith;
- ii. The financial information contained in the Report of the Sharia Supervisory Board and the Directors' report is consistent with the consolidated financial statements;
- iii. Except for the matter described below in connection with the non-compliance with the requirements of the CBB's Rulebook (Volume 2 Licensing Requirements module LR-2.5.2A), nothing has come to our attention which causes us to believe that the Bank has, during the year, breached any of the applicable provisions of the Commercial Companies Law, CBB and the Financial Institutions Law, CBB Rulebook (Volume 2) and CBB directives or the items of its Memorandum and Articles of Association that would have a material adverse effect on its activities for the year ended 31 December 2022 or its financial position as at that date:
 - The total consolidated owners' equity of the Bank as at 31 December 2022 stood at less than BD 100 million which is a non-compliance with the requirements of the CBB's Rulebook (Volume 2 – Licensing Requirements module – LR-2.5.2A); and
- iv. Satisfactory explanations and information have been provided to us by the Board of Directors in response to all our requests.

Further, we report that the Bank has complied with the Islamic Sharia Principles and Rules as determined by the Sharia Supervisory Board of the Group during the period under audit.

Notes to the consolidated financial statements for the year ended 31 December 2022

1 INCORPORATION AND ACTIVITIES

Ithmaar Bank B.S.C. (C) (the "Bank") was incorporated in the Kingdom of Bahrain on 12 May 2016 as a Closed Joint Stock entity and registered with the Ministry of Industry & Commerce under commercial registration number 99336-1 and was licensed as an Islamic retail bank by the Central Bank of Bahrain (the "CBB") on 14 August 2016.

Ithmaar Holding B.S.C.(formerly Ithmaar Bank B.S.C.) ["Ithmaar"], a Category 1 investment firm licensed and regulated by the Central Bank of Bahrain (CBB) is the immediate parent company of the Bank. Dar Al-Maal Al-Islami Trust ("DMIT"), a Trust incorporated in the commonwealth of Bahamas is the ultimate parent company of the Bank.

Pursuant to the reorganisation of Ithmaar at its Extraordinary General Meeting (EGM) held on 28 March 2016 where shareholders approved to restructure Ithmaar Bank B.S.C. into a holding company and two subsidiaries to segregate core and non-core assets, the core assets and liabilities of Ithmaar were transferred to the Bank along with control over the below mentioned subsidiaries on 2 January 2017.

Subsequent to reorganization, the transfer of the legal ownership of certain assets and liabilities from Ithmaar to the Bank are in progress.

The principal activities of the Bank and its subsidiaries (collectively the "Group") are a wide range of financial services, including retail, commercial, investment banking, private banking, takaful and real estate development.

The Bank's activities are regulated by the CBB and are subject to the supervision of Sharia Supervisory Board.

The Group's activities also include acting as a Mudarib (manager, on a trustee basis), of funds deposited for investment in accordance with Islamic laws and principles particularly with regard to the prohibition of receiving or paying interest. These funds are included in the consolidated financial statements as equity of unrestricted investment accountholders and restricted investment accounts. In respect of equity of unrestricted investment accountholders, the investment accountholder authorises the Group to invest the accountholders' funds in a manner which the Group deems appropriate without laying down any restrictions as to where, how and for what purpose the funds should be invested. In respect of restricted investment accounts, the investment accountholders impose certain restrictions as to where, how and for what purpose the funds are to be invested. Further, the Group may be restricted from commingling its own funds with the funds of restricted investment accounts.

The Group carries out its business activities through the Bank's head office, 1 commercial branch in Bahrain and its following principal subsidiary companies:

	<i>7</i> ₀ 0	wnea	<u></u>

Notes to the consolidated financial statements for the year ended 31 December 2022

1 INCORPORATION AND ACTIVITIES (continued)

1.1 As of 31 December 2022, the consolidated equity of the Group stood at BD36.1 million, which is below the minimum regulatory capital required by the CBB of BD100 million as per LR module of Volume 2 rulebook. The Board of Directors of the immediate Parent Company has also discussed the plan to re-merge Ithmaar Holding B.S.C., Ithmaar Bank B.S.C. (c) and IB Capital B.S.C. (c) into a single entity where the surviving entity (re-merged entity) shall function as an Islamic retail bank with certain exemptions subject to the approvals of the competent authorities.

The Group's management assessed its liquidity and equity projections of the entity for the coming twelve months from the date issue of these consolidated financial statements. The management's assessment includes following assumptions:

- No change in status of sanctioned liabilities and accordingly no repayments.
- Stressing the expected outflows of the liabilities.
- Stressing the expected inflows from assets.
- Ability to maintain core deposits through increased focus on corporate customers as part of the new business model of the remaining entity (evidenced by actual cash flows till the reporting date).
- · Reduction in operation expenses resulting from a leaner remaining entity post transaction with Al Salam
- · Increased availability of liquid assets in the form of interbank liquidity support facility; and
- Use of ALCO approved rollover/ renewal related behavioural patterns of liabilities post the transaction.

The Board of Directors has reviewed the above assumptions and believes that the Group will be able to continue its business without any significant curtailment of operations and meet its obligations for a period of at least one year from the date of issue of these consolidated financial statements. Accordingly, this consolidated financial statements are prepared on a going concern basis.

Ithmaar Bank B.S.C. (C) Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES

(i) Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with applicable rules and regulations issued by the Central Bank of Bahrain ("CBB"). These rules and regulations require the adoption of all Financial Accounting Standards issued by the Accounting and Auditing Organisation of Islamic Financial Institutions (AAOIFI) (FAS) and the Bahrain Commercial Companies Law number (21) of 2001, as amended (the Commercial Companies Law), CBB Rulebook (Volume 4 and applicable provisions of Volume 6).

Further in line with the requirements of AAOIFI and the CBB rule book, for matters not covered under AAOIFI standards the Group uses guidance from the relevant International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB").

The above framework of the consolidated financial statements is hereinafter referred to as 'Financial Accounting Standards.

The Group has certain assets, liabilities and related income and expenses which are not Sharia compliant as these existed before Ithmaar (the parent) converted to an Islamic retail bank in April 2010. These are currently presented in accordance with FAS in the consolidated financial statements for the year ended 31 December 2022 as appropriate.

The Sharia Supervisory Board has approved the Sharia Compliance Plan ("Plan") for assets and liabilities which are not Sharia Compliant. The Sharia Supervisory Board is monitoring the implementation of this Plan. The income and expenses attributable to non-Sharia compliant assets and liabilities is disclosed under note 38.

The consolidated financial statements comprise the financial information of the Group for the year ended 31 December 2022.

The principal accounting policies adopted in the preparation of the consolidated financial statements are set out below:

Ithmaar Bank B.S.C. (C)

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

A. New standards, amendments, and interpretations issued and effective for annual periods beginning on or after 1 January 2022

(i) FAS 38 Wa'ad, Khiyar and Tahawwut

AAOIFI has issued FAS 38 Wa'ad, Khiyar and Tahawwut in 2020. The objective of this standard is to prescribe the accounting and reporting principles for recognition, measurement and disclosures in relation to shariah compliant Wa'ad (promise), Khiyar (option) and Tahawwut (hedging) arrangements for Islamic financial institutions. This standard is effective for the financial reporting periods beginning on or after 1 January 2022.

This standard classifies Wa'ad and Khiyar arrangements into two categories as follows:

- a) "ancillary Wa'ad or Khiyar" which is related to a structure of transaction carried out using other products i.e. Murabaha, ljarah Muntahia Bittamleek, etc.; and
- b) "product Wa'ad and Khiyar" which is used as a stand-alone Shariah compliant arrangement.

Further, the standard prescribes accounting for constructive obligations and constructive rights arising from the stand-alone Wa'ad and Khiyar products.

The Group does not have any significant impact on adoption of this standard.

B. New standards, amendments, and interpretations issued but not yet effective

(i) FAS 39 Financial Reporting for Zakah

AAOIFI has issued FAS 39 Financial Reporting for Zakah in 2021. The objective of this standard is to establish principles of financial reporting related to Zakah attributable to different stakeholders of an Islamic financial Institution. This standard supersedes FAS 9 Zakah and is effective for the financial reporting periods beginning on or after 1 January 2023 with an option to early adopt.

This standard shall apply to institution with regard to the recognition, presentation and disclosure of Zakah attributable to relevant stakeholders. While computation of Zakah shall be applicable individually to each institution within the Group, this standard shall be applicable on all consolidated and separate / standalone financial statements of an institution.

This standard does not prescribe the method for determining the Zakah base and measuring Zakah due for a period. An institution shall refer to relevant authoritative guidance for determination of Zakah base and to measure Zakah due for the period.

The Group is currently evaluating and assessing the impact of adopting this standard.

(ii) FAS 1 General Presentation and Disclosures in the Financial Statements

AAOIFI has issued the revised FAS 1 General Presentation and Disclosures in the Financial Statements in 2021. This standard describes and improves the overall presentation and disclosure requirements prescribed in line with the global best practices and supersedes the earlier FAS 1. It is applicable to all the Islamic Financial Institutions and other institutions following AAOIFI FAS's. This standard is effective for the financial reporting periods beginning on or after 1 January 2023 with an option to early adopt.

Some of the significant revisions to the standard are as follows:

- a) Revised conceptual framework is now integral part of the AAOIFI FAS's;
- b) Definition of Quassi equity is introduced;
- c) Definitions have been modified and improved;
- d) Concept of comprehensive income has been introduced;
- e) Institutions other than Banking institutions are allowed to classify assets and liabilities as current and non-current;
- f) Disclosure of Zakah and Charity have been relocated to the notes;
- g) True and fair override has been introduced;
- h) Treatment for change in accounting policies, change in estimates and correction of errors has been introduced;
- i) Disclosures of related parties, subsequent events and going concern have been improved;
- j) Improvement in reporting for foreign currency, segment reporting;
- k) Presentation and disclosure requirements have been divided into three parts. First part is applicable to all institutions, second part is applicable only to banks and similar IFI's and third part prescribes the authoritative status, effective date an amendments to other AAOIFI FAS's; and
- I) The illustrative financial statements are not part of this standard and will be issued separately.

The Group is assessing the impact of adoption of this standard and expects changes in certain presentation and disclosures in its consolidated financial statements.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies

(a) Basis of consolidation

Subsidiaries

Subsidiaries are companies in which the Group holds 50% or more of equity shares and as such exercises significant control over such companies. Control is also presumed to exist if the Group has power to govern the financial and operating policies of a company with the objective of obtaining benefits from its operations. Subsidiaries, including Special Purpose entities that are controlled by the Bank, are consolidated from the date on which the Group obtains control and continue to be so consolidated until the date such control ceases

For business combinations involving entities under common control, the directors of the Group are responsible for determining a suitable accounting policy for such business combinations. The directors have elected to use the uniting of interests method to account for business combinations involving entities under common control and to account for such business combinations prospectively, under the predecessor basis of accounting. Under the uniting of interests method, there is no requirement to fair value the assets and liabilities of the acquired entities and hence no goodwill arises on consolidation. The difference between the cost of the acquired entities and the Group's share of the issued and paid up share capital of the acquired entity is recognised as share premium in equity.

Associates

Associates are companies in which the Group has significant influence, but not control over the management of affairs, and which are neither subsidiaries nor joint ventures. The Group's investments in associates are accounted for under the equity method of accounting. Under the equity method, the investment in the associate is carried in the financial position at cost plus post-acquisition changes in the Group's share of net assets of the associate. The consolidated income statement reflects the Group's share of the results of operations of the associate. Where there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes and discloses this, when applicable, in the consolidated statement of changes in owners' equity.

Intra-Group balances and non-controlling interests

The consolidated financial statements include the assets, liabilities and results of operations of the Bank, its subsidiary companies after adjustment for non-controlling interests and equity of unrestricted investment accountholders managed by the Group for both subsidiaries and associates. All significant intra-group balances and transactions are eliminated.

The financial statements of the subsidiaries are prepared on the same reporting periods as the Bank, using consistent accounting policies (for group reporting purposes).

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

- (ii) Summary of significant accounting policies (continued)
 - (b) Foreign currency transactions and balances

Functional and presentation currency

Items included in the consolidated financial statement of the Group's entities are measured using the currency of the primary economic environment in which the entity operates, which is Bahraini Dinars (the functional currency).

For group companies, items included in the consolidated financial statements of the Group's entities are measured using the currency of the primary economic environment in which the entity operates, which is Bahraini Dinars (the functional currency) and presented in US Dollars (the presentation currency). Considering that the Bahraini Dinar is pegged to United States Dollars, the changes in presentation currency does not have any impact on the consolidated statement of financial position, consolidated income statement, consolidated statement of changes in owners' equity, consolidated statement of cash flow and consolidated statement of changes in restricted investment accounts.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated income statement. Translation differences on non-monetary items carried at their fair value, such as certain investments carried at fair value through equity are included in investments fair value reserve.

The results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- 3. All resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations, and of borrowings and other currency instruments designated as hedges of such investments, are taken to shareholders' equity. Translation losses arising in the case of severe devaluation or depreciation (other than temporary) of the currency of the net investment in a foreign operation when the latter is translated at the spot exchange rate at the date of consolidated statement of financial position, are recognised in the first place as a charge against any credit balance on the separate component of the shareholders' equity and any remaining amount is recognised as a loss in the consolidated income statement. When a foreign operation is partially disposed of or sold, exchange differences that were recorded in equity are recognised in the consolidated income statement as part of the gain or loss on sale.

Goodwill, and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(c) Accounting estimates and judgements

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

1. Classification of investments

In the process of applying the Group's accounting policies, management decides upon acquisition of an investment, whether it should be classified as investments carried at fair value through income statement, held at amortised cost or investments carried at fair value through equity. The classification of each investment reflects the management's intention in relation to each investment and is subject to different accounting treatments based on such classification.

2. Special purpose entities

The Group sponsors the formation of special purpose entities (SPEs) primarily for the purpose of allowing clients to hold investments. The Group does not consolidate SPEs where it does not exercise control. In determining whether the Group exercises control over an SPE, judgements are made about the objectives of the SPEs activities, its exposure to the risks and rewards, as well as about the Group's ability to obtain benefit from the SPE's operations by having power to govern its financial and operational policies.

3 Impairment of goodwill and intangible assets

Goodwill other intangibles assets acquired through business combinations have been allocated to the cash-generating units of the acquired entities for impairment testing purposes. The Group tests whether goodwill or intangible assets have suffered any impairment in accordance with the impairment accounting policy.

The recoverable amount of the cash-generating units are generally determined based on higher of Value-in-Use (VIU) and Fair Value Less Cost to Disposal (FVLCTD).

VIU calculations are determined using cash flow projections from financial budgets approved by the Group's senior management covering a three year period. The discount rate applied to cash flow projections represent the cost of capital adjusted for an appropriate risk premium for these cash-generating units.

For FVLCTD calculations, the Comparable Companies Multiple (CCM) method is used, whereby the price to book value (P/B) multiple of the comparable listed banks operating in the region is considered. The key assumptions used in estimating the recoverable amounts of cash-generating units are assessed to ensure reasonableness of the FVLCTD.

The above methods require the use of estimates, which are subject to judgement. Changes in the underlying assumptions may impact the reported numbers.

The management used the uses the higher of VIU or FVLCTD method in assessing the recoverable amount of the goodwill and other intangible assets. As a result, the management uses judgement in the percentage of the control premium and marketability discount used in the calculation of the effective P/B multiple for the FVLCTD method.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(c) Accounting estimates and judgements (continued)

4. Impairment on financing assets and investments

Each financing and investment exposure is evaluated individually for impairment. In assessing impairment, the Group exercises judgment in the estimation of the amount and timing of future cash flows as well as an assessment of whether credit risk on the financial contracts has increased significantly since initial recognition and incorporation of forward-looking information in the measurement of expected credit losses ("ECL") in accordance with impairment policy.

The staging and ECL of related party exposures is considered separately from the other financing assets. The ECL is assessed using the cash shortfall method since the underlying collateral can be taken over without having to apply any haircut. Further, the increase in credit risk is also assessed separately for related parties, given their commitment to honour the amounts due to the Group.

5. Liquidity mismatch

The Group constantly monitors the liquidity mismatch arising in the normal course of the business. Periodic stress tests are carried out on liquidity position to assess the ability of the Group to meet its liquidity mismatch. The stress testing also incorporates judgement based behavioural approach for various sources of funding, estimated inflows from disposal of assets and anticipated support from major shareholder.

6. Significant increase in credit risk (SICR)

A SICR occurs when there has been a significant increase in the risk of a default occurring over the expected life of a financial instrument. In the measurement of ECL, judgement is involved in setting the rules and trigger points to determine whether there has been a SICR since initial recognition of a financing facility, which would result in the financial asset moving from 'stage 1' to 'stage 2. The Group continues to assess borrowers for other indicators of unlikeliness to pay, taking into consideration the underlying cause of any financial difficulty and whether it is likely to be temporary as a result of COVID-19 or longer term.

During 2020 and 2021, in accordance with CBB instructions the Group has granted payment holidays to its eligible customers by deferring up to six months instalments at a time. These deferrals are considered as short-term liquidity to address borrower cash flow issues. The relief offered to customers may indicate a SICR. However, the Group believes that the extension of these payment reliefs does not automatically trigger a SICR and a stage migration for the purposes of calculating ECL, as these are being made available to assist borrowers affected by the COVID-19 outbreak to resume regular payments. The Group uses judgement to individually differentiate between a borrowers' short-term liquidity constraints taking into account of customers who requested for further deferment and a change in its lifetime credit risk.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(c) Accounting estimates and judgements (continued)

7. Forward Looking Information

Judgement is involved in determining which forward looking information variables are relevant for particular financing portfolios and for determining the sensitivity of the parameters to movements in these forward-looking variables. The Group derives a forward looking economic scenario which reflects the Group's view of the most likely future macro-economic conditions.

Any changes made to ECL to estimate the economic outlook post COVID-19 is subject to high levels of uncertainty as limited forward-looking information is currently available on which to base those changes. The Group has previously performed historical analysis and identified key economic variables impacting credit risk and ECL for each portfolio. These economic variables and their associated impact on PD, EAD and LGD vary by financial instrument.

Many of the macroeconoic variables which were used in the ECL model are updated or published by external agencies or government agencies.

(d) Cash and cash equivalents

Cash and cash equivalents as referred to in the consolidated statement of cash flows comprise cash on hand, non-restricted balance with central banks and other banks, and short term liquid investments on demand or with an original maturity of three months or less.

(e) Murabaha and other financings

Murabaha financing is stated at cost less allowance for doubtful receivables.

The Group considers the promise made in Murabaha to the purchase orderer as obligatory.

Other financings represent conventional loans and advances, which are non-derivative financial assets with fixed or determinable payments. These are initially recorded at fair value and are subsequently carried at amortised cost using the effective yield method.

The Group receives collateral in the form of cash or other securities including bank guarantees, mortgage over property or shares and securities for Murabaha and other financings where deemed necessary. The Group's policy is to obtain collateral where appropriate. To ensure that the market value of the underlying collateral remains sufficient, collateral is valued periodically.

Provision are made in accordance with FAS 30 as per note 2.

(f) Musharaka financing

Musharaka financing is stated at cost less provision for impairment.

Provision are made in accordance with FAS 30 as per note 2.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(g) Investments

1. Investments carried at amortised cost

An Investment instruments shall be measured at amortised cost if both the following conditions are met:

a. the investment is held within a business model whose objective is to hold such investments in order to collect expected cashflows till maturity of the instrument; and

b. the investment represents either a debt type instrument or other investment instrument having reasonably determinable effective yield.

These investments are measured using effective profit method at initial recognition minus capital/redemption payments and minus any reduction for impairment.

2. Investments carried at fair value through equity

An Investment will be measured at Fair Value through equity if both the following conditions are met:

a. the investment is held within a business model whose objective is achieved by noth collecting the expected cashflows and selling the investments; and

b. the investment represents a non monetary debt type instrument or other investment instrument having reasonably determinable effective yield.

Any other investment instruments not classified as per amortised cost or fair value through equity, are classified as fair value through income statement (FVIS).

On initial recognition, the Group makes an irrevocable election to designate certain equity instruments that are not designated at fair value through income statement to be classified as investments at fair value through equity.

Business model: the business model reflects how the Group manages the assets in order to generate cash flows. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVIS. Factors considered by the Bank in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

3. Investments carried at fair value through income statement

An investment is classified as investment carried at fair value through income statement if acquired or originated principally for the purpose of generating a profit from short term fluctuations in price or dealer's margin. These investments are recognised on the acquisition date at fair value. At the end of each reporting period, investments are re-measured at their fair value and the difference between carrying value and fair value is recognised in the consolidated income statement. All other gains/ losses arising from these investments are recognized in the consolidated income statement.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(g) Investments (continued)

4. Investment in real estate

All properties held for earning periodical income or for capital appreciation purposes or both are classified as investment in real estate (held-for-use).

Investment in real estate is initially recognised at cost and subsequently re-measured at fair value in accordance with the fair value model with the resulting unrealised gains being recognised in the consolidated statement of changes in owner's equity under investment in real estate fair value reserves. Any unrealised losses resulting from re-measurement at fair value of investment in real estate carried at fair value are adjusted in equity against the investment in real estate fair value reserve, taking into consideration the split between the portion related to owners' equity and equity of investment accountholders, to the extent of the available credit balance of this reserve. In case such losses exceed the available balance, the unrealised losses are recognised in the consolidated income statement. In case there are unrealised losses relating to investment in real estate that have been recognised in the consolidated income statement in a previous financial period, the unrealised gains relating to the current financial period are recognised to the extent of crediting back such previous losses in the consolidated income statement.

The realised profits or losses resulting from the sale of any investment in real estate are measured as the difference between the book value (or carrying amount) and the net cash or cash equivalent proceeds from the sale for each investment separately. The resulting profit or loss together with the available balance on the investment in real estate fair value reserve account is recognised in the consolidated income statement for the current financial period.

All properties where decision is made to sell and the sale is expected to occur within 12 months of reporting date (subject to availability of identified willing buyer) are classified as Investment in real estate Held-for-sale

Investment in real estate Held-for-sale is measured at fair value in accordance with the fair value model.

5. Development properties

Development properties represent land held by the Group for development and sale in the ordinary course of business, and include expenditure incurred in acquiring the properties and other costs incurred in bringing them to their existing condition.

Development properties are carried at lower of cost or estimated net realisable value. Estimated net realisable value is determined using the estimated selling price in the ordinary course of business, less estimated development expenditure.

6. Mudaraba

Mudaraba investments are recorded at cost.

Share of the Group's profit or loss from the Mudaraba are recognized in the consolidated income statement upon distribution or deduction from Mudaraba capital (in case of losses).

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(g) Investments (continued)

7. Fair value

The fair value of quoted investments in active market is based on current bid price. If there is no active market for such financial assets, the Group establishes fair values using valuation techniques. These include the use of recent arm's length transactions and other valuation techniques used by other participants. The Group also refers to valuations carried out by investment managers in determining fair value of certain unquoted financial assets.

In certain rare circumstances where the Group is unable to determine reliable measure of fair value of equity instrument on a continuing basis, the instrument is measured at cost.

(h) Assets acquired for leasing (Ijarah)

Assets acquired for leasing are stated at cost and are depreciated according to the Group's depreciation policy for fixed assets or lease term, whichever is lower.

Provision are made in accordance with FAS 30 as per note 2.

(i) Fixed assets

Fixed assets are stated at cost less accumulated depreciation except for lands & buildings. Depreciation is calculated on the straight-line method to write off the cost of each asset over its estimated useful life as follows:

Buildings 50 years
Leasehold improvements over the period of the lease
Furniture, equipment and motor vehicles 3-10 years

During the year the management has changed the accounting policy for land and building from cost method to revaluation method' (Refer note 12). Land & buildings are initially recognised at cost. After initial recognition, these are carried at the revalued amount. The revaluation is carried out periodically by independent professional property valuers. Fair value is determined by using unobservable valuation inputs. The resultant revaluation surplus is recognised, as a separate component under equity. Revaluation deficit, if any, is recognised in the consolidated statement of income, except that a deficit directly offsetting a previously recognised surplus on the same asset is directly offset against the surplus in the revaluation reserve in equity.

Depreciation is calculated separately for each significant part of an asset category. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. The asset's residual value and useful life are reviewed, and adjusted if appropriate, at each date of the statement of financial position.

Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost can be measured reliably. All other repairs and renewals are charged to the consolidated income statement during the financial period in which they are incurred.

Gains and losses on disposal of property, plant and equipment are determined by comparing proceeds with carrying amounts.

(j) Intangible assets

1. Goodwill

Goodwill acquired at the time of acquisitions of subsidiaries is reported in the consolidated statement of the financial position as an asset. Goodwill is initially measured at cost being the excess of the cost of acquisition over the fair value of the Group's share of the net assets of the acquired subsidiary undertaking at the date of acquisition. Subsequently, the goodwill is tested for an impairment on an annual basis. At the end of the financial period, the goodwill is reported in the consolidated statement of financial position at cost less any accumulated impairment losses.

Negative goodwill resulting from the acquisition of a business or entity is recognised in the consolidated income statement.

Acquisition of non-controlling interests is accounted using the Economic Entity Method. Under the Economic Entity Method, the purchase of a non-controlling interests is a transaction with a shareholder. As such, any excess consideration over the Group's share of net assets is recorded in owners' equity.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(j) Intangible assets (continued)

2. Computer software

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised on the basis of the expected useful lives (three to five years). Costs associated with maintaining computer software programs are recognised as an expense as incurred.

Costs that are directly associated with the production of identifiable and unique software products controlled by the Group, and that will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. Direct costs include software development employee costs and an appropriate portion of relevant overheads. Computer software development costs recognised as assets are amortised using the straight line method over their expected useful lives.

3. Other acquired intangible assets

Other acquired intangible assets determined to have finite lives, such as core deposits, brand and customer relationships, are amortised on a straight line basis over their estimated useful lives of up to twenty years. The original carrying amount of core deposits and customer relationships is determined by independent appraisers, based on the profit rate differential on the expected deposit duration method.

Other acquired intangible assets are tested annually or more often if indicators exist for impairment and carried at cost less accumulated amortization.

Other acquired intangible assets with infinite lives are tested annually for impairment and carried at cost less accumulated amortization.

(k) Current taxation

There is no tax on corporate income in the Kingdom of Bahrain. However, taxation related to the subsidiaries incorporated in tax jurisdictions are recorded as per local regulations.

(I) Value Added Tax (VAT)

The Group is subject to VAT at 5% on certain financial services as applicable from 1 January 2019 (increased to 10% from 1 January 2021). The amount of VAT liability is determined by applying the VAT rate on eligible turnover, reduced by the VAT paid on eligible expenses (input VAT). The irrecoverable portion of input VAT is recognized as expense in the consolidated income statement.

(m) Deferred taxation

Deferred taxation is recognised using the liability method for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

A deferred tax asset is recognised for all deductible temporary differences and carry forward of unused tax losses and tax credits to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and unused tax losses and tax credits can be utilised. Enacted tax rates are used to determine deferred income tax.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(n) Provision for staff benefits

Staff benefits and entitlements to annual leave, holiday air passage and other short-term benefits are recognised when they accrue to employees. The Group's contributions to defined contribution plans are charged to the consolidated income statement in the period to which they relate. In respect of these plans, the Group has a legal and constructive obligation to pay the contributions as they fall due and no obligation exists to pay future benefits.

In respect of end of service benefits, to which certain employees of the Group are eligible, costs are assessed in accordance with the labour law requirements of the applicable jurisdiction.

For variable remuneration, a provision is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past services provided by the employee and the obligation can be measured reliably.

For share incentive based variable remuneration, provision is recognized in accordance with the CBB guidelines, based on the adjusted net asset value of the latest audited consolidated financial statements.

(o) Due to investors

Funds received from depositors who take the corporate risk of the Bank or its subsidiaries are classified as "Due to investors"

(p) Equity of unrestricted investment accountholders

Under the equity of unrestricted investment accountholders (URIA), the investment account holder authorizes the Group to invest the accountholders' funds in a manner which the Group deems appropriate without laying down any restrictions as to where, how and for what purpose the funds should be invested.

Investment accounts are initially recognised at fair value of the consideration received at the date on which the contract becomes effective.

After initial recognition, subsequent measurement of investment accounts takes into account undistributed profits and other reserves created specifically for the account of investment accountholders less any losses on assets attributable to investment accountholders.

(q) Profit Equalisation Reserve (PER)

PER is appropriated out of the income arising from owners or equity of unrestricted investment accountholders for the purpose of managing rate of return risk (including displaced commercial risk).

Contribution to PER is recognised in consolidated income statement allocated to owners or unrestricted investment accountholders as appropriate.

Utilization/ reversal of PER is recognised when the reserve is no longer needed as per management's opinion. The reversal is recognised in consolidated income statement allocated to owners or unrestricted investment accountholders as appropriate.

PER is disclosed as part of the equity of unrestricted investment accountholders or owners' equity as appropriate.

The adequacy of PER is assessed on annual basis using quick update approach in accordance with the Bank's risk management policies.

Adjustments or transfers between PER and IRR are accounted for when the underlying event occurs.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(r) Investment Risk Reserve (IRR)

IRR is appropriated out of the income arising from owners or equity of unrestricted investment accountholders for the purpose of creating cushion against credit, market and equity investment risk mainly pertaining to residual future probable losses (after impairment and credit losses accounted for under impairment policy).

Contribution to IRR is recognised in consolidated income statement allocated to owners' equity or unrestricted investment accountholders as appropriate.

Utilization/ reversal of IRR is recognised when the loss event occurs or the reserve is no longer needed as per management's opinion. The reversal is recognised in consolidated income statement allocated to owners or unrestricted investment accountholders as appropriate and not netted off with the respective loss.

IRR is disclosed as part of the equity of unrestricted investment accountholders or owners' equity as appropriate.

The adequacy of IRR is assessed on annual basis using quick update approach in accordance with the Bank's risk management policies.

Adjustments or transfers between PER and IRR are accounted for when the underlying event occurs.

(s) Restricted investment accounts (off-balance sheet)

Under the restricted investment accounts (RIA), the investment accountholders impose certain restrictions as to where, how and for what purpose the funds are to be invested. These accounts are disclosed separately in Statement of changed in RIA.

Investment accounts are initially recognised at fair value of the consideration received at the date on which the contract becomes effective.

After initial recognition, subsequent measurement of investment accounts takes into account undistributed profits and other reserves created specifically for the account of investment accountholders less any losses on assets attributable to investment accountholders.

(t) Treasury shares

These shares are treated as a deduction from the owners' equity. Gains and losses on sale of own shares are included in owners' equity.

(u) Statutory reserve

In accordance with the Bahrain Commercial Companies Law, 10% of the Group's consolidated net income for the year is transferred to a statutory reserve until such time as reserve reaches 50% of the paid up share capital. The reserve is not distributable, but can be utilized as stipulated in the Bahrain Commercial Companies Law and other applicable statutory regulations.

(v) Fixed Assets fair value reserve

The fixed assets fair value reserve is used to record increments and decrements on the revaluation of noncurrent assets. In the event of a sale of an asset, any balance in the reserve in relation to the asset is transferred to retained earnings as per note 2(i).

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(w) Revenue recognition

1. Profit participation and management fees

Income from profit participation and management fees charged to funds managed by the Group is recognised on the basis of the Group's entitlement to receive such revenue from restricted and unrestricted investment accounts as defined in the Mudaraba agreement (trust deed), except when the Group temporarily waives its entitlement.

2. Profit on Murabaha and other financings

Profit on Murabaha transactions is recognised by proportionately allocating the attributable profits over the period of the transaction where each financial period carries its portion of profits irrespective of whether or not cash is received. However, profit accrual is suspended on Murabaha transactions in respect of which repayment instalments are past due for more than ninety days, unless, in the opinion of the management of the Bank, the accrual is justified.

Income from other financings is accrued based on the effective yield method over the period of the transaction. Where income is not contractually determined or quantifiable, it is recognised when reasonably certain of realisation or when realised.

3. Income from assets acquired for leasing

Lease rental revenue is recognised on a time-apportioned basis over the lease term.

4. Income from Mudaraba contracts

Income from Mudaraba contracts are recognised when the Mudarib distributes profits. Any share of losses for the period are recognized to the extent such losses are being deducted from the Mudaraba capital.

5. Profit on Musharaka contracts

In respect of Musharaka contracts that continue for more than one financial period, the Group's share of profits are recognised when a partial or final settlement takes place and its share of the losses are recognised to the extent that such losses are deducted from the Group's share of Musharaka capital. However, in respect of diminishing Musharaka transactions, profits or losses are recognised after considering the decline in the Group's share of the Musharaka capital and, consequently, its proportionate share of the profits or losses.

6. Income from investments carried at amortised cost

All gains or losses from investments carried at amortised cost are recognised in consolidated statement of income.

7. Income from investments carried at fair value through income statement

All gains or losses from investments carried at fair value through income statement are recognised in consolidated statement of income.

8. Income from investments carried at fair value through equity

The realised gains or losses along with the amounts previously recognised in equity are recognised in the consolidated income statement.

Dividend income is recognised in the consolidated statement of income when right to receive payment is established.

9. Fees and commissions

Fees and commissions are recognised when earned.

Commissions on letters of credit and letters of guarantee are recognised as income over the period of the transaction.

Fees for structuring and arrangement of financing transactions for and on behalf of other parties are recognised when the Bank has fulfilled all its obligations in connection with the related transaction.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

- (ii) Summary of significant accounting policies (continued)
 - (x) Profit allocation between group and investment accountholders

The Group holds separate books for assets financed by owners, unrestricted and restricted investment accounts. All income generated from the assets financed by the investment accounts are allocated to the customers after deducting provisions, investment risk reserve, profit equalisation reserves, mudarib's share of profit and management fees.

Administrative expenses incurred in connection with the management of the funds are borne directly by the Group.

Some profit incentives are recognised based on term of the contracts with restricted account holders.

(y) Assets transfer between Owner's equity, Unrestricted Investment Accounts and Restricted Investment Accounts

Assets are transferred between Owner's equity, Unrestricted Investment Accounts and Restricted Investment Accounts at fair value.

(z) Shari'a compliant risk management instruments and hedge accounting

The Group uses certain shari'a compliant risk management instruments (similar to derivatives) to economically hedge exposures to foreign exchange and profit rate risks. Such instruments are initially recognised at fair value on the date on which the contract is entered into and are subsequently remeasured at their fair value. The fair value of a hedging instrument is the equivalent to its prevailing market rates or is based on broker quotes. Instruments with positive market values are disclosed as assets and instruments with negative market values are disclosed as liabilities in the statement of financial position.

In certain circumstances the Group enters into shari'a compliant risk management instruments to hedge foreign currency risks. Changes in the fair value of derivative financial instruments that are designated, and qualify as fair value hedges, are included in the consolidated income statement together with the corresponding change in the fair value of the hedged asset or liability that is attributable to the risk being hedged. Unrealised gains or losses on hedged assets which are attributable to the hedged risk are adjusted against the carrying values of the hedged assets or liabilities. For derivatives that are not designated in a qualifying hedge relationship, all changes in its fair value are recognised immediately in the statement of changes in owners' equity.

Cash flow hedging attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognised in statement of changes in owners' equity and presented in the hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in consolidated income statement. The Group currently has hedged cash flows to manage its profit rate risk on variable rate financial liabilities.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(z) Shari'a compliant risk management instruments and hedge accounting (continued)

Hedges directly affected by variable profit rate benchmark reforms

For the purpose of evaluating whether there is an economic relationship between the hedged item(s) and the hedging instrument(s), the Group assumes that the benchmark variable profit rate is not altered as a result of global variable profit rate benchmark reform.

For a cash flow hedge of a forecast transaction, the Group assumes that the benchmark variable profit rate will not be altered as a result of variable profit rate benchmark reform for the purpose of assessing whether the forecast transaction is highly probable and presents an exposure to variations in cash flows that could ultimately affect profit or loss. In determining whether a previously designated forecast transaction in a discontinued cash flow hedge is still expected to occur, the Group assumes that the variable profit rate benchmark cash flows designated as a hedge will not be altered as a result of variable profit rate benchmark reform

The Group will cease to apply the specific policy for assessing the economic relationship between the hedged item and the hedging instrument (i) to a hedged item or hedging instrument when the uncertainty arising from interest rate benchmark reform is no longer present with respect to the timing and the amount of the variable profit rate benchmark-based cash flows of the respective item or instrument or (ii) when the hedging relationship is discontinued. For its highly probable assessment of the hedged item, the Group will no longer apply the specific policy when the uncertainty arising from variable profit rate benchmark reform about the timing and the amount of the variable profit rate benchmark-based future cash flows of the hedged item is no longer present, or when the hedging relationship is discontinued.

(aa) Impairment

Impairment of financial assets is assessed in accordance with FAS 30 "Impairment, credit losses & onerous commitments" as follows:

1. Financings & receivables

Financings, receivables (including off-balance sheet exposures) are measured using the Expected Credit Losses (ECL) model in accordance with the Credit Losses Approach.

FAS 30 replaces the 'incurred loss' model with an 'expected credit loss' model ("ECL"). The new impairment model also applies to certain financing commitments and financial guarantees. The allowance is based on the ECLs associated with the probability of default in the next twelve months unless there has been a significant increase in credit risk since origination in which case the allowance is based on the change in the ECLs over the life of the asset. Under FAS 30, credit losses are recognized earlier than under the previous standard.

Basis of Preparation - Measurement of the expected credit loss allowance

The measurement of the expected credit loss allowance of a receivable or exposure measured with the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses).

A number of significant judgements are also required in applying the accounting requirements for measuring ECL such as:

- Determining the criteria for significant increase in credit risk;
- Determining the criteria for definition of default;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL; and
- Establishing groups of similar receivables for the purpose of measuring ECL

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

- (ii) Summary of significant accounting policies (continued)
 - (aa) Impairment (continued)
 - 1. Financings & receivables (continued)

ECL - Significant increase in credit risk (SICR)

To determine whether credit risk has significantly increased since initial recognition, the Bank will compare the risk of default at the assessment date with the risk of default at initial recognition. This assessment is to be carried out at each assessment date.

For the Corporate portfolio, the Group assess for significant increase in credit risk (SICR) at a counterparty level as the internal rating is currently carried out at a counterparty level and rating is not assigned at facility level. The Group maintains a facility level rating being the counterparty's internal rating at date of facility origination and date of assessment.

For the Retail portfolio, the Group currently manages its retail portfolio at a facility level, therefore assessment for SICR on the retail portfolio is done on a facility level. Days past due (DPD) of individual facilities will reflect on the counterparty SICR assessment.

Determining whether credit risk has increased significantly

In determining whether credit risk has increased significantly since initial recognition, the Group uses its internal credit risk grading system, external risk ratings, delinquency status of accounts, restructuring, expert credit judgement and, where possible, relevant historical experience.

Using its expert credit judgment and, where possible, relevant historical experience, the Group may determine that an exposure has undergone a significant increase in credit risk based on particular qualitative indicators that it considers are indicative of such and whose effect may not otherwise be fully reflected in its quantitative analysis on a timely basis.

The Group considers that a significant increase in credit risk occurs no later than when an asset is more than 30 days past due. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. Due dates are determined without considering any grace period that might be available to the borrower.

The Group monitors the effectiveness of the criteria used to identify significant increases in credit risk by regular reviews and validations.

The Group classifies its financial instruments into stage 1, stage 2 and stage 3, based on the applied impairment methodology, as described below: -

- Stage 1: for financial instruments where there has not been a significant increase in credit risk since initial recognition and that are not credit-impaired on origination, the Group recognises an allowance based on the 12-month ECL.
- Stage 2: for financial instruments where there has been a significant increase in credit risk since initial recognition but they are not credit-impaired, the Group recognises an allowance for the lifetime ECL for all financings categorized in this stage based on the actual / expected maturity profile including restructuring or rescheduling of facilities.
- Stage 3: for credit-impaired financial instruments, the Group recognises the lifetime ECL. Default identification process i.e. DPD of 90 more is used as stage 3.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(aa) Impairment (continued)

1. Financings & receivables (continued)

Default

FAS 30 seeks to align accounting for impairment of financial instruments with the manner in which credit risk is internally managed within the banks. In this context, the 'risk of default' of a financial instrument is a key component of the expected loss model under FAS 30.

In general, counterparties with facilities exceeding 90 days past due are considered in default.

Non-Retail:

The Group has set out the following definition of default (as provided by the Basel document and FAS 30 guidelines):

Non-retail customers with the following characteristics:

- All or any of the facility/ies in which any instalment or part thereof is outstanding for a period of 90 days or more
- · All or any of the facility/ies put on non-accrual status (i.e. profit suspended)
- All or any of the facility/ies wherein 'specific provision' is set aside individually

Event driven defaults such as declaration of bankruptcy, death of borrower (in absence of succession plan or professional management), and other specific events which would significantly impact the borrower's ability the Group.

The Group will not consider the 90 days past due criteria in cases of technical defaults (e.g. facilities marked as 90+DPD due to administrative reasons and not credit related concerns and there is no dispute regarding repayment).

Retail:

The Group has set out the following definition of default:

All facilities in which any instalment or part thereof is outstanding for a period of 90 days or more

The Bank will not consider the 90 days past due criteria in cases of technical defaults (e.g. facilities marked as 90+DPD due to administrative reasons and not credit related concerns and there is no dispute regarding repayment).

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

- (ii) Summary of significant accounting policies (continued)
 - (aa) Impairment (continued)
 - 1. Financings & receivables (continued)

Measurement of ECL

ECL is a probability-weighted estimate of credit losses. It is measured as follows:

- financial assets that are not credit-impaired at the reporting date: as the value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive);
- financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows;
- financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Group expects to recover.

The Group measures an ECL at an individual instrument level taking into account the projected cash flows, PD, LGD, Credit Conversion Factor (CCF) and discount rate. For portfolios wherein instrument level information is not available, the Bank carries out ECL estimation on a collective basis.

The key inputs into the measurement of ECL are the term structure of the following variables:

- I. Probability of default (PD);
- II. Loss given default (LGD);
- III. Exposure at default (EAD).

These parameters are generally derived from internally developed statistical models and other historical data. They are adjusted to reflect forward-looking information as described above.

PD estimates are estimates at a certain date, which are calculated based on statistical rating models, and assessed using rating tools tailored to the various categories of counterparties and exposures. These statistical models are based on internally compiled data comprising both quantitative and qualitative factors. If a counterparty or exposure migrates between ratings classes, then this will lead to a change in the estimate of the associated PD.

LGD is the magnitude of the likely loss if there is a default. In case of non-availability of recovery data, the Bank uses LGD estimate based on market practice.

EAD represents the expected exposure in the event of a default. The Group derives the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract including amortization. The EAD of a financial asset is its gross carrying amount. For lending commitments and financial guarantees, the EAD includes the amount currently outstanding.

The period of exposure limits the period over which possible defaults are considered and thus affects the determination of PDs and measurement of ECLs (especially for Stage 2 accounts with lifetime ECL).

Subject to using a maximum of a 12-month PD for financial assets for which credit risk has not significantly increased, the Group measures ECL considering the risk of default over the maximum contractual period over which it is exposed to credit risk, even if, for risk management purposes, the Group considers a longer period. The maximum contractual period extends to the date at which the Group has the right to require repayment of an advance or terminate a loan commitment or guarantee.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(aa) Impairment (continued)

1. Financings & receivables (continued)

Incorporation of forward looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. The Group annually source macro-economic forecast data from the International Monetary Fund (IMF) and Economist Intelligence Unit (EIU) database for the relevant exposure country.

Management judgement is exercised when assessing the macroeconomic variables. The macro economic variables used for FAS 30 PD modelling include, among others, GDP, Inflation and Domestic Credit Growth

Generating the term structure of PD

Credit risk grades and days past due (DPD) are primary inputs into the determination of the term structure of PD for exposures. The Group collects performance and default information about its credit risk exposures analyzed by type of borrower, days past due and as well as by credit risk grading.

The Group employs statistical models to analyze the data collected and generate estimates of the remaining lifetime PD of exposures and how these are expected to change as a result of the passage of time.

This analysis includes the identification and calibration of relationships between changes in default rates and macro-economic factors as well as in-depth analysis of the impact of certain other factors (e.g. forbearance experience) on the risk of default. For most exposures, key macro-economic indicators include: GDP Inflation and Domestic Credit Growth.

Based on consideration of a variety of external actual and forecast information, The Group calculates PiT PD estimates under three scenarios, a base case, good case and bad case. An appropriate probability weighted ECL is then calculated by assigning probabilities, based on current market conditions, to each scenario.

For Corporate portfolio, through the yearly review of the corporate portfolio, the Group observes yearly performances to compute a count based PD over the one-year horizon for the past 5 years. These PDs are grouped as per internal risk ratings (i.e. from 1 to 7). An average default rate of the 5 yearly observed default provides the through the cycle PDs.

The retail portfolio is segmented based on products that exhibit distinguished behavior into the following categories:

- Auto finance;
- · Mortgage finance;
- · Personal Finance; and
- Credit cards.

PDs for each segment are measured using Observed Default Estimation and thus PD is calculated based on DPD bucket level for each segment separately. Under this analysis, the delinquency status of accounts is tracked at an interval of one year with a moving month cycle. A minimum of 5 year DPD data is considered.

The PD's derived are adjusted with forward looking information based on macro-economic variables and calibrated to derive the final PD's separately for Corporate and Retail portfolio.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

- (ii) Summary of significant accounting policies (continued)
 - (aa) Impairment (continued)
 - 1. Financings & receivables (continued)

Impairment

The Group recognizes loss allowances for ECL on the following type of financial instruments:

- All Islamic financing and certain other assets (including Commodity and Murabaha receivables)
- Debt instruments that are measured at amortised cost or at fair value through equity.
- Financing commitments that are not measured at fair value through profit and loss (FVTPL)
- Financial guarantee contracts that are not measured at fair value through profit and loss (FVTPL)
- · Lease receivables and contract assets
- · Balances with banks
- · Related party balances
- · Contingent liabilities

The Group measures loss allowances at an amount equal to lifetime ECL, except for the other financial instruments on which credit risk has not increased significantly since their initial recognition, for which ECL is measured as 12-month ECL.

12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognized and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective profit rate of the existing financial asset

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(aa) Impairment (continued)

1. Financings & receivables (continued)

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable events:

All or any of the facility/ies in which any instalment or part thereof is outstanding for a period of 90 days or more

All or any of the facility/ies put on non-accrual status (i.e. profit suspended)

All or any of the facility/ies wherein 'specific provision' is set aside individually

Breach of financial covenants that are considered material. The Bank will determine materiality based on negative impact of breach on the credit rating of the obligor

Event driven defaults such as declaration of bankruptcy (filed by the borrower or initiated by the Bank against the borrower), death of borrower (in absence of succession plan or professional management), and other specific events which would significantly impact the borrower's ability the Bank.

The Bank makes a charge-off or account-specific provision resulting from a significant perceived decline in credit quality subsequent to the Bank taking on the exposure;

The Bank transfers the credit obligation at less than the cash equivalent value;

The Bank consents to a distressed restructuring of the credit obligation where this is likely to result in a diminished financial obligation caused by the material forgiveness, or postponement, of repayment instalments;

Distressed restructuring refers to situations when the Bank grants a concession that it would not otherwise consider, irrespective of whether the concession is at the discretion of the Bank or otherwise. Forgiveness means reduction in repayment amount or profit. Postponement could include grace periods or changes in instalments leading to delayed maturity.

The Bank considers that the obligor is unlikely to pay its credit obligations in full (i.e. principal, profit, fees or any other amount), without taking actions such as realizing security (if held).

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL in case of financial assets measured at amortized cost: as a deduction from the gross carrying amount of the assets.

Notes to the consolidated financial statements for the year ended 31 December 2022

2 SIGNIFICANT GROUP ACCOUNTING POLICIES (continued)

(ii) Summary of significant accounting policies (continued)

(aa) Impairment (continued)

1. Financings & receivables (continued)

Write-off

The Group's existing policy remains the same under FAS 30. Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to credit loss expense.

The Group writes off financial assets, in a whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery (i) ceasing enforcement activity and (ii) where the Group's recovery method is foreclosing on a collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full. The Group may however write-off financial assets that are still subject to enforcement activity.

2. Investments

Development properties

Development properties are carried at lower of cost or estimated net realisable value in accordance with the Net realisable value approach. This includes the situation when there is a possible indication of decline in the value of such properties. Estimated net realisable value is determined using the estimated selling price in the ordinary course of business, less estimated development expenditure. Impairment losses are recognised in the consolidated income statements.

Intangible assets

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to the cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit, to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in the consolidated income statement.

Assets classified as Held for sale

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of derecognition.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the consolidated income statement.

Other investments

All other investments (excluding investments carried at fair value through income statement) are assessed for impairment in accordance with the Impairment approach.

Impairment loss represents the amount by which an investment's carrying value exceeds its recoverable amount.

In case of indications of possible impairment, the recoverable amount of an investment is determined as being the higher of its fair value less costs of disposal and its value-in-use.

Impairment losses are recognised in the consolidated income statement, taking into account the split between owners and unrestricted investment accounts.

7 SUKUK AND INVESTMENT SECURITIES (continued)

FAS 25 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Group's market assumptions. These two types of inputs have created the following fair value hierarchy:

Level 1 – Quoted prices (unadjusted) in active markets for identical investments.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the investments, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3 – inputs for the investments that are not based on observable market data (unobservable inputs).

This hierarchy requires the use of observable market data when available. The Group considers relevant and observable market prices in its valuations where possible.

Investments measured at fair value

11 DEVELOPMENT PROPERTIES

	Relating to	Relating to owners			
	31 December	31 December			
	2022	2021			
Land	51,340	47,118			
Development costs	5,940	17,514			
	57,280	64,632			

Development costs represent the infrastructure costs incurred such as roads and networks, electricity stations and design and supervision costs and the infrastructure cost. The infrastructure cost commitments are expected to be met by anticipated sale of plots. Based on this, the management has estimated that the current carrying value is lower than the net realisable value, and accordingly, no impairment has been considered necessary.

At 31 December	26,186	12,203	

Depreciation charge for the year ended 31 December 2022 amounted to BD3.5 million (31 December 2021: BD4 million).

Due to change in its business model post the transaction with Al Salam and in order to provide more reliable and relevant information, on 31 December 2022, the Group has changed its accounting policy in respect of the measurement of the carrying amount of its freehold land, leasehold land, buildings on freehold land and buildings on leasehold land subsequent to initial recognition. In this respect the Group has decided to follow the revaluation model as allowed under International Accounting Standard 16: 'Property, Plant and Equipment', which lays down that 'Items of property, plant and equipment under the revaluation model are carried at fair value at the date of revaluation, less any subsequent accumulated depreciation and any subsequent accumulated impairment losses'.

Had there been no revaluation, the carrying amount of land and building would have been BD11.2 million.

Notes to the consolidated financial statements for the year ended 31 December 2022

(Expressed in thousands of Bahraini Dinars unless otherwise stated)

Goodwill Customer relations Core deposits Others

Amortisation charge for the year ended 31 December 2022 amounted to BD4.8 million (31 December 2021: BD5.9 million).

(90,758)

The carrying amount of goodwill has been allocated to cash-generating units as follows:

154,611

	31 December 2022	31 December 2021
Faysal Bank Limited	2,163	2,672
	2,163	2,672

The recoverable amount of the cash-generating units were determined based on Value-in-Use (VIU) and Fair Value Less Cost to Sell (FVLCTS). VIU calculations were determined using cash flow projections from financial budgets approved by the Group's senior management covering a three year period. The discount rate applied to cash flow projections represent the cost of capital adjusted for an appropriate risk premium for these cash-generating units. For FVLCTS calculations, the Comparable Companies Multiple (CCM) method was used, whereby the price to book value multiple of the listed Islamic banks operating in the region was considered. The key assumptions used in estimating the recoverable amounts of cash-generating units were assessed to ensure reasonableness of the VIU and FVLCTS and resulting adjustment, if any, is recorded in the consolidated income statement.

18 EQUITY OF UNRESTRICTED INVESTMENT ACCOUNTHOLDERS

The funds received from Unrestricted Investment Accountholders (URIA) are invested on their behalf without recourse to the Group. The statement of financial position of URIA is as follows:

	Note	31 December 2022	31 December 2021
Cash and balances with banks and central banks	3	89,439	77,082
Commodity and other placements with banks, financia			
and other institutions	4	6,734	-
Murabaha and other financings	5	264,506	648,413
Musharaka financing	6	573,470	537,462
Sukuk and investment securities	7	790,109	487,383
Assets acquired for leasing	9	-	147,368
Other assets	10	42,575	27,516
Investment in real estate		2,815	-
Fixed assets		19,284	21,450
Intangible assets		751	-
Due from the Group (net)		15,339	208,665
		1,805,022	2,155,339
Customers' current accounts		(483,521)	(482,115)
Due to banks, financial and other institutions	15	(265,329)	(181,425)
Other liabilities	17	(84,519)	(70,407)
Equity of unrestricted investment accountholders		971,653	1,421,392

Due from the Group represents amount invested by URIA with owners. This amount is eliminated on consolidated and reflected as URIA's share of jointly financed assets on the the consolidated financial position.

The assets attributable to unrestricted investment accountholders have been disclosed net of impairment provision amounting to BD40.1 million (31 December 2021: BD35.5 million). The movement of impairment provision relating to unrestricted investment accountholders has been disclosed in note 26.

Other liabilities include the profit equalization reserve and the movement is as follows:

	31 December 2022	31 December 2021
At 1 January	1,568	4,335
Net utilisation during the year	(979)	(2,767)
At 31 December	589	1,568

The average gross rate of return in respect of unrestricted investment accounts was 4.8% per annum for 2022 (2021: 3.9%) of which 3.2% per annum (2021: 2.4%) was distributed to the investors and the balance was either set aside as provision for impairment, management fee of BD0.5 million (up to 1.5% of the total invested amount per annum to cover administration and other expenses related to the management of such funds) and/or retained by the Group as share of profits in its capacity as a Mudarib.

Notes to the consolidated financial statements for the year ended 31 December 2022

(Expressed in thousands of Bahraini Dinars unless otherwise stated)

19 NON-CONTROLLING INTERESTS

The consolidated financial statements include 100% of the assets, liabilities and earnings of subsidiaries. The ownership interests of the other shareholders in the subsidiaries are called non-controlling interests.

The following table summarises the non-controlling shareholders' interests in the equity of consolidated subsidiaries.

_	31 Dec	ember 2022		31 December 2021
	Non- controlling %		Non-controlling %	
Faysal Bank Limited	33	38,206	33	44,485
Dilmunia Development Fund I L.P.	8	4,402	9	8,123
Sakana Holistic Housing Solutions B.S.C. (C)	50	610	50_	594
	_	43,218	_	53,202

Non-controlling interests in the consolidated income statement of BD5.2 million (31 December 2021: BD5.7 million) represents the non-controlling shareholders' share of the earnings of these subsidiaries for the respective years.

20 SHARE CAPITAL

	Number of shares (thousands)	Share capital
	(illousalius)	Silare Capital
Authorised	7,540,000	754,000
Issued and fully paid		
Total outstanding as at 1 January 2021	1,000,000	100,000
At 31 December 2021 (Audited)	1,000,000	100,000
Issued and fully paid		
Total outstanding as at 1 January 2022	1,000,000	100,000
At 31 December 2022 (Audited)	1,000,000	100,000

The Bank's total issued and fully paid share capital at 31 December 2022 comprises 1,000,000,000 shares at 100 fils per share amounting to BD100,000,000. the Chief Executive Officer owns 1 share and remaining shares are held by Ithmaar Holding B.S.C. The share capital of the Bank is denominated in Bahraini Dinars.

The Bank grants shadow shares to employees calculated based on the net asset value of the Bank since the Bank is not listed. The number of shadow shares granted to employees as of 31 December 2022 was 15.5 million shares (31 December 2021: 15.5 million shares) of which the unvested shadow shares amount to 2.7 million shares (31 December 2021: 5.7 million shares).

Ithmaar Bank B.S.C. (C)

Notes to the consolidated financial statements for the year ended 31 December 2022

(Expressed in thousands of Bahraini Dinars unless otherwise stated)

26 PROVISION FOR IMPAIRMENT (continued)

Included in Stage 1 under "Acceptable risks (4-6)" is the financing extended to the Group's affiliate, IB Capital, amounting to BD319.3 million. This financing originated on 2 January 2017 as part of the reorganization pursuant to the Extraordinary General Meeting (EGM) held on 28 March 2016 where the shareholders approved to restructure the erstwhile Ithmaar Bank B.S.C into a holding company and two subsidiaries to segregate core and non-core assets with IB Capital holding the non-core assets. The financing is collateralized by the underlying assets of IB Capital and the recovery is based on the sale of these underlying assets through an asset sale plan approved by the Board of Directors of the Group.

As part of the Group's staging policy to determine whether credit risk has significantly increased since initial recognition, the Group compared the risk of default at the assessment date with the risk of default at initial recognition. Following factors were analyzed as part of this assessment:

- The recovery of the financing at initial recognition was based on the sale of the underlying assets by IB Capital.
- the delays in the sale of underlying assets were mainly due to the COVID-19 pandemic. All principal and profit payments are current.
- The ECL has been calculated under various stressed scenarios and the resulting impairment is within the existing ECL range.

Accordingly, the Group concluded that there has been no significant increase in credit risk of the exposure since initial recognition and classification of the above financing in Stage 1 is appropriate as of 31 December 2022.

27 OVERSEAS TAXATION

		Relating to owners Year ended			
	31 December 2022	31 December 2021			
Current taxes	18,706	12,015			
Deferred taxes	1,974	(1,315)			
	20,680	10,700			

The Group is subject to income taxes in some jurisdictions. Estimates are required in determining the provision for income taxes. There are some transactions and calculations for which the ultimate tax determination is uncertain. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences impact the income tax and deferred tax provisions in the period in which such determination is made.

29 ZAKAH

Zakah is directly borne by the owners and investors in restricted and equity of unrestricted investment accountholders. The Bank does not collect or pay Zakah on behalf of its owners and its investment accountholders.

30 CONTINGENT LIABILITIES AND COMMITMENTS

Contingent liabilities

	31 December 2022	31 December 2021
Acceptances and endorsements	11,530	17,830
Guarantees and irrevocable letters of credit	172,813	261,352
Customer and other claims	52,871	71,696
	237,214	350,878
Commitments		
	31 December 2022	31 December 2021
Undrawn facilities, financing lines and other commitments to finance	488,187	582,907

31 CURRENCY RISK

Assuming that all other variables held constant, the impact of currency risk on the consolidated income statement/equity based on reasonable shift is summarized below:

	PKR	EUR	USD
As at 31 December 2022			
Total currency exposure	181,515	34,611	103,791
Reasonable shift	4.02%	2.01%	0.61%
Total effect on income/equity	7,297	696	633
	PKR	EUR	USD
As at 31 December 2021			
Total currency exposure	222,605	8,950	175,969
Reasonable shift	8.38%	1.57%	0.61%
Total effect on income/equity	18,654	141	1,073

The basis for calculation of the reasonable shift is arrived at by comparing the foreign exchange spot rate as compared to the one year forward rate for the same period.

Notes to the consolidated financial statements for the year ended 31 December 2022 (Expressed in thousands of Bahraini Dinars unless otherwise stated)

CURRENCY RISK (continued)

Ithmaar Bank B.S.C. (C)

Notes to the consolidated financial statements for the year ended 31 December 2022

34 RISK MANAGEMENT

The Bank's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the banking business, and these risks are an inevitable consequence of participating in financial markets. The Bank's aim is therefore to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Bank's financial performance.

The Bank's risk management policies, procedures and systems are designed to identify and analyze these risks and to set appropriate risk mitigants and controls. The Bank reviews its risk management policies and systems on an ongoing basis to reflect changes in markets, products and emerging best practices.

Risk management is performed by the Risk Management Department under policies approved by the Board of Directors. The Risk Management Department identifies and evaluates financial risks in close co-operation with the Group's operating units. The most important types of risks identified by the Group are credit risk, liquidity risk, market risk, reputational risk and operational risk. Market risk includes currency risk, profit rate risk, and price risk.

Credit risk

Credit risk is considered to be the most significant and pervasive risk for the Bank. The Bank takes on exposure to credit risk, which is the risk that the counter-party to a financial transaction will fail to discharge an obligation causing the Bank to incur a financial loss. Credit risk arises principally from financing (credit facilities provided to customers) and from cash and deposits held with other banks and financial institutions. Further, there is credit risk in certain off-balance sheet financial instruments, including guarantees, letters of credit, acceptances and commitments to extend credit. Credit risk monitoring and control is performed by the Risk Management Department which sets parameters and thresholds for the Bank's financing and off-balance sheet financial instruments.

Considering this evolving situation, the Group has taken preemptive measures to mitigate credit risk by adopting more cautious approach for credit approvals thereby tightening the criteria for extending credit to impacted sectors. These measures may lead to lower disbursement of financing facilities, resulting in lower net financing income and decrease in other revenue.

The risk management department has also enhanced its monitoring of financing portfolio by reviewing the performance of exposures to sectors expected to be directly or indirectly impacted by COVID-19 to identify potential Significant increase in Credit Risk (SICR).

The Group has updated its inputs and assumptions for computation of Expected Credit Losses (ECL) (refer to note 2).

The management and the Board of Directors (BOD) have been closely monitoring the potential impact of the COVID-19 developments on the Group's operations and financial position; including possible loss of revenue, impact on asset valuations, impairment, review of onerous contracts and debt covenants, outsourcing arrangements etc. The Group has also put in place contingency measures, which include but are not limited to enhancing and testing of business continuity plans including its liquidity requirements.

In preparing the consolidated financial statements, judgements made by management in applying the Group's accounting policies and sources of estimation are subject to uncertainty regarding the potential impacts of the current economic volatility and these are considered to represent management's best assessment based on available or observable information.

As of 31 December 2022, the Bank is compliant with the required Capital Adequacy Ratio, Net Stable Funding Ratio (NSFR) and Liquidity Coverage Ratios (LCR). As of 31 December 2022, the Group had NSFR ratio of 135%.

Ithmaar Bank B.S.C. (C) Notes to the consolidated financial statements for the year ended 31 December 2022

34 RISK MANAGEMENT (continued)

Credit Risk Mitigation

Bank uses a variety of tools to mitigate its credit risk, the primary one being that of securing the exposure by suitable collateral. While the existence of collateral is not a precondition for credit, exposures are fully or partially collateralized as a second line of defense. The Bank has in place a Credit Risk Mitigation policy which provides guidelines on the types of assets that may be accepted as collateral and the methodology of valuation of these assets. In general, all collateral valued periodically depending on the collateral type. The legal validity and enforceability of the documents used for collateral have been established by qualified personnel, including lawyers and Sharia scholars.

Bank's credit portfolio is supported by various types of collateral such as real estate, listed equity, cash and guarantees. Bank prefers liquid and marketable credit collateral; however other types of collateral are accepted provided that such collateral can be reasonably valued. Third party guarantees are accepted as collateral only after analyzing the financial strength of the guarantors.

Collateral Valuation

Collateral when taken are identified as having reasonable value, their value would however change over a period of time due to prevailing economic conditions, plant and machinery becoming obsolete due to technological advancements, due to passage of time and due to increase in availability of similar collateralized securities. Listed securities are valued at quarterly intervals, unlisted securities are valued at annual intervals, real estate properties are valued at least once in two years' intervals, and special assets of the nature of marine vessels and aircrafts are valued at annual intervals. Value of collateral are accounted post assigning various levels of haircuts depending on the type of collateral, the same are provided in the Credit Risk Mitigation Policy. Collaterals associated with exposures classified in stage 2 and stage 3 shall be valued annually.

Guarantees

Guarantees are taken from individuals and Corporates. In cases where a letter of guarantee from the counterparty's parent company or from a third party is offered as credit risk mitigant, it is ensured that the guarantees must be irrevocable and unconditional. If the guarantor is located outside Bahrain, legal opinion is obtained from a legal counsel domiciled in the country of guarantor (overseas) regarding the enforceability of the guarantee. Further, the financial position of the guarantor is adequately analyzed to determine the value and commercial viability of the guarantee.

Collateral Concentration

Bank has established internal limits to avoid over concentration on certain class of collateral. Prudent maximum limits have been set for the acceptance of collateral as credit risk mitigation.

Ithmaar Bank B.S.C. (C)

Notes to the consolidated financial statements for the year ended 31 December 2022

34 RISK MANAGEMENT (continued)

Liquidity risk

Liquidity risk is the risk that Bank is unable to meet its financial obligations as they fall due, which could arise due to mismatches in cash flows.

Liquidity risk arises either:

- From the inability to manage unplanned decreases or changes in funding sources; or
- from the failure to recognize or address changes in market conditions that affect the ability to liquidate assets quickly and with minimal loss in value.

Liquidity risk management ensures that funds are available at all times to meet the funding requirements, Funding and liquidity management is performed centrally by the Asset and Liability Management Committee (ALCO). Group's liquidity policies are designed to ensure it will meet its obligations as and when they fall due, by ensuring it is able to generate funds from the market, or have sufficient High Quality Liquid Assets (HQLAs) to sell and raise immediate funds without incurring unacceptable costs and losses. Bank regularly monitors the concentration in the funding sources and ensures that the funding sources are adequately diversified.

The CBB has introduced Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) during 2019. The Bank maintains LCR of 131% (31 December 2021: 135%) and NSFR of 135% (31 December 2021: 125%) which are above regulatory minimum of 100%. The 90 day average LCR as of 31 December 2021 is 107% (31 December 2021: 150%).

The management of the Group has enhanced its monitoring of the liquidity and funding requirements.

Ithmaar Bank B.S.C. (C)

Notes to the consolidated financial statements for the year ended 31 December 2022

34 RISK MANAGEMENT (continued)

Market risk

Market risk is the risk of potential loss arising from change in the value of any exposure due to adverse changes in the underlying benchmark market rates, i.e. foreign exchange rates, equity prices and profit rates.

Management of market risk is the responsibility of the relevant business units with the Group companies with oversight by the Asset-Liability Committee (ALCO).

Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events which includes but not limited to legal risk and Sharia compliance risk. This definition excludes strategic and reputational risks.

Through a control framework and by monitoring and responding to potential risks, Bank is able to manage the operational risks to an acceptable level.

In response to COVID-19 outbreak, there were various changes in the working model, interaction with customers, digital modes of payment and settlement, customer acquisition and executing contracts and carrying out transactions with and on behalf of the customers. The management of the Group has enhanced its monitoring to identify risk events arising out of the current situation and the changes in the way business is conducted.

Reputational Risk

The Reputational Risk Management is defined as the risk arising risk arising from negative perception on the part of customers, counterparties, shareholders, investors, debt-holders, market analysts, other relevant parties or regulators that can adversely affect a bank's ability to maintain existing, or establish new, business relationships and continued access to sources of funding. The Bank has developed a framework and has identified various factors that can impact its reputation. Management of reputation risk is an inherent feature of the Bank's corporate culture which is embedded as an integral part of the internal control systems.

Notes to the consolidated financial statements for the year ended 31 December 2022

(Expressed in thousands of Bahraini Dinars unless otherwise stated)

34 RISK MANAGEMENT (continued)

Credit risk

Non performing financing exposures are conservatively considered as financing exposures which have been past due beyond 90 days and the profit on these assets is not recognized in the consolidated income statement. Following are the details of non performing financing exposures relating to the Group and its unrestricted investment accountholders:

		31 Dece	31 December 2021			
	Relating to owners	Relating to unrestricted investment accounts	Total	Relating to owners	Relating to unrestricted investment accounts	Total
Gross exposure						
Past due but performing financing	4.4.770	222 222	005.405	0.745	100 710	405 400

į		_					

Notes to the consolidated financial statements for the year ended 31 December 2022

(Expressed in thousands of Bahraini Dinars unless otherwise stated)

34 RISK MANAGEMENT (continued)

Profit rate risk (continued)

	USD	PKR	AED
As at 31 December 2022			
Total profit rate exposure	138,495	116,882	123,086
Reasonable shift	4.98%	5.55%	3.40%
Total effect on income	6,897	6,487	4,185
	USD	PKR	AED
As at 31 December 2021			,
Total profit rate exposure	201,582	169,797	123,930
Reasonable shift	0.13%	3.95%	0.11%
Total effect on income	262	6,707	136

The basis for calculation of the reasonable shift is arrived at by comparing the interbank lending rate at the beginning and the end of the year.

A fundamental review and reform of major profit rate benchmarks is being undertaken globally. The majority of LIBOR and other Interbank Offer Rates are discontinued after 31 December 2021 and replaced with certain Alternative Reference Rates ("ARRs"), with the exception of certain USD LIBOR rates where cessation is delayed until 30 June 2023.

As of 31 December 2022, the Group did not have any significant exposure to contracts linked to benchmark rates, except a long term borrowing, and it continues to enhance its systems and processes to cope with the change in benchmark rates.

Notes to the consolidated financial statements for the year ended 31 December 2022

(Expressed in thousands of Bahraini Dinars unless otherwise stated)

35 RELATED PARTY TRANSACTIONS AND BALANCES

Parties are considered to be related if one party has the ability to control the other party or to exercise significant influence or joint control over the other party in making financial and operating decisions.

- (a) Directors and companies in which they have an ownership interest.
- (b) Major shareholders of the Bank, Ultimate Parent and companies in which Ultimate Parent has ownership interest and subsidiaries of such companies (affiliates).
- (c) Associated companies of the Bank.
- (d) Senior management.

A related party transaction is a transfer of resources, services, or obligations between related parties, regardless of whether a price is charged.

Significant balances with related parties comprise:

36 CAPITAL MANAGEMENT

The Group's objectives when managing capital, which is a broader concept than the 'equity' on the face of financial position, are:

- To comply with the capital requirements set by the regulators of the banking markets where the entities within the Group operate;
- To safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

The table below summarises the composition of regulatory capital and the ratios of the Group for the year ended. The capital adequacy ratio has been calculated in accordance with CBB guidelines & CBB directives incorporating credit risk, operational risk and market risk. The subsidiaries comply with the directives of the respective local regulators for their capital management.

	31 December 2022	31 December 2021
Tier 1 Tier 2	105,876	127,696
Total Capital Base	105,876	127,696
Total Risk-Weighted Exposures	801,711	989,590
Capital Adequacy Ratio	13.21%	12.90%

37 PROPOSED DIVIDEND

The Board of Directors has not proposed any dividend for the year ended 31 December 2022 (31 December 2021: Nil).

Notes to the consolidated financial statements for the year ended 31 December 2022

(Expressed in thousands of Bahraini Dinars unless otherwise stated)

38 NON-SHARIA COMPLIANT INCOME AND EXPENSES

The Group has earned certain income and incurred certain expenses from conventional assets and liabilities. These conventional assets and liabilities are in accordance with the Sharia Compliance Plan. The details of the total income and total expenses are as follows:

	Year en	ded
	31 December 2022	31 December 2021

(Expressed in thousands of Bahraini Dinars unless otherwise stated)

41 DISCONTINUED OPERATIONS

During January 2022, Ithmaar Holding agreed in-principle with Al Salam Bank B.S.C. (Al Salam) of the acquisition of the consumer banking business of Ithmaar Bank, and Ithmaar Holdings' ownership stake in both Bank of Bahrain and Kuwait B.S.C., and Solidarity Group Holding (the "transaction"). This announcement followed the execution of a non-legally binding Memorandum of Understanding (MoU) between the two entities in October 2021. The transaction was approved by Ithmaar Holding's shareholders during its Extraordinary General Meeting on 17 March 2022. The transaction was completed on 7 July 2022 after obtaining requisite regulatory and corporate approvals and signing of definitive agreements.

The BBK shares and the Solidarity shares were beneficially owned by IB Capital. Pursuant to the Assets Pledge Agreement between Ithmaar Bank and IB Capital dated 21 January 2019, IB Capital had pledged their entire direct and/or indirect shareholding in Bank of Bahrain and Kuwait B.S.C. and Solidarity Group Holding B.S.C. against the Murabaha Facility from the Bank. As per the agreement signed on 7 July 2022, IB Capital transferred these pledged Shares to the Bank for the partial in-kind settlement of their Murabaha Facility, for a total value of BD243 million .

Subsequent to the completion of the above transfer, the beneficial ownership of the shares in BBK and Solidary were then transferred by the Bank to Al Salam as part of the Transaction.

The consideration for sale of the group of assets was settled through transfer of certain liabilities and equity of investment account holders of the consumer banking business of Ithmaar Bank BSC (c), resulting in a gain of BD29 million based on the agreed values of assets and liabilities (the "operations") as of 7 July 2022:

Assets transferred	As of 7 July 2022
Consumer business	
Cash and balances with banks and central banks	63,240
Murabaha and other financings	295,312
Sukuk and investment securities	31,578
Assets acquired for leasing	142,785
Other assets	31,244
Fixed assets	5,449
Total	569,608
Investment in subsidiary (Takaful business)	38,865
Investment in associate (investment assets)	188,516
Total assets transferred - A	796,989
Consumer business	
Customers' current accounts	35,272
Due to banks, financial and other institutions	14,368
Other liabilities	19,339
Total liabilities	68,979
Equity of unrestricted investment accountholders	754,655
Net movement in consolidated income statement relating to the above assets & liabilities from 1 to 7 July 2022	156
Total liabilities transferred - B	823,790
Estimated balancing payment - C	2,211
Gain recongised on transfer (B+C-A)	29,012

Notes to the consolidated financial statements for the year ended 31 December 2022

(Expressed in thousands of Bahraini Dinars unless otherwise stated)

41 DISCONTINUED OPERATIONS (continued)

The gain on the transaction of BD29 million was assessed initially on fair values as of 30 September 2021. Accordingly, the movement in carrying values of the transferred assets and liabilities associated with the transaction from 1 October 2021 till 30 June 2022 have been reflected as part of discontinued operations for the period. The net results of the above operations included in the consolidated financial statements are as follows:

	Year ended		
	31 December	31 December	
Description	2022	2021	
Total income	4,944	6,804	
Total expenses	(5,132)	(10,913)	
	(188)	(4,109)	
Provision for impairment - net	(111)	(509)	
	(299)	(4,618)	
Write off of intangible assets directly associated with consumer business Movement in carrying values from 1 October 2021 to 7 July 2022 for	(9,426)	-	
investment & Takaful business	(15,898)	_	
Transfer of fair value and foreign exchange translation reserves to consolidated income statement for investment assets	2,226	-	
	(23,397)	(4,618)	
Gain recongised on transfer	29,012	-	
Net results from discontinued operations	5,615	(4,618)	

The comparative period balances in the consolidated income statement have been reclassified to include those operations that have been classified as discontinued in the current period presentation.

The net cash flows of the above operations included in the consolidated statement of cash flows, are as follows:

	rear e	rear ended		
	30 December	30 December		
Cash flow lines	2022	2021		
Net cash from operating activities	12,897	27,877		
Net cash used by investing activities	(24,726)	(33,520)		
Net cash movement	(11,829)	(5,643)		

42 SUBSEQUENT EVENT

Subsequent to the reporting date, the foreign exchange rate of Pakistani Rupee, the functional currency of the Group's subsidiary incorporated in Pakistan, has significantly deteriorated against United States Dollars. Any adverse movement of the foreign exchange rate will have an accounting impact on the Group's consolidated equity.
